# SOVEREIGN

4:1 CONCENTRATED IODINE BASED TEAT  
DISINFECTANT FOR POST MILKING USE

- Iodine based post milking teat disinfectant
- 4:1 concentrate
- High Emollient levels including lanolin & glycerine
- Can be used for dipping and spraying

## RECOMMENDED USAGE

### Post milking teat hygiene:

1. The product should be diluted just prior to use by adding 1 part product to 4 parts water.
2. Fill teat cup two thirds full of diluted product and immerse each teat ensuring that the entire surface of the teat is covered OR spray the full length of each teat.
3. Refill the dip cup as necessary. Dip cups should be emptied after use and washed before re-use.

**Udder washing:** When the teats are dirty clean them with a paper towel soaked in 25 ml of product concentrate in 8 litres of clean water. Prepare a fresh solution daily. Use one disposable paper towel for each cow

**Cluster dipping:** Between transferring clusters from one cow to the next, plunge the clusters 3 times into a solution prepared by adding 25 ml of product concentrate to 8 litres of water.

**Storage:** Store in original container below 25°C. Protect from frost. Protect from direct sunlight.

**Pack Size:** 4x5, 25 & 200 litre

**Shelf Life:** 1 year from date of manufacture
